Dear Steve,

On behalf of the Stanford Center for Sleep Sciences and Medicine, I would like to thank you and the Kleine-Levin Syndrome Foundation for your generous gift, which will allow my KLS lab to recruit and support a Phd student or postdoctoral fellow.

This is a promising time to transform how we approach sleep diseases and disorders. The Kleine-Levin Syndrome Foundation has been a true partner in pioneering research and extending the boundaries of what is known about the prevention and treatment of KLS. Thank you for your shared mission to improve the lives of individuals and families affected by KLS.

Sincerely,
